

JANA MITCHELL

Nominated by:

Mid 5 Employment & Training, Inc.

Case Manager: Rita Steele

Jana applied for assistance for the LPN/ADN program in December 2013. She had already completed her pre-requisite classes and had completed one semester of the LPN program on her own. She was unemployed at the time of enrollment and a single parent of a 5 year old daughter.

This was a great challenge for her being a single mother, attending college full time and the demands of the nursing program. Jana had a large support system of family and friends which she greatly appreciated.

While attending college she was having problems with paying her rent, utility bills and she was having car problems. The WIA program provided supportive services to help Jana through this difficult time so that she could continue with her schooling.

After finishing the LPN program she went to work at Carrier Mills Nursing and Rehab Center. Jana completed the ADN program and graduated from Southeastern Illinois College on June 3, 2015. She is currently employed at Deaconess Gateway Hospital in Evansville, Indiana.

***MID-5 CONGRATULATES JANA
ON HER WELL DESERVED SUCCESS!***
