

Daniel Arnold

Recently, the Wabash Area Development's WIA Program paid the tuition cost for Daniel Arnold from Edwards County to take a "757" Flight Program course in Las Vegas after being laid-off from flying small cargo planes. He wanted to further his education by upgrading his flying skills to be able to fly the bigger planes. After all the paperwork was finished away he went. Within two months he had completed his training with flying colors.

Now he had the task of trying to decide which job he was going to take. He had six different companies that wanted to hire him. He finally made the big decision to go with the Qatar Airlines in Qatar, Arabia. He will be starting at the end of January and making \$235,000 a year, he gets a new home at no cost to him, all utilities and food included and a car to drive when he is on land. This is definitely a success story. We wish our customer all the best in his future.

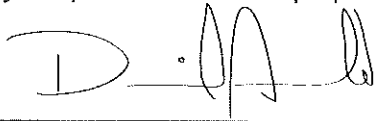

If just shows how the WIA Program can work for the person who wants to better themselves through education and hard work when they don't have the financing themselves
