MEMO

RE: Executive Director Annual Review

The Executive Committee is responsible for evaluating the Executive Director and making recommendations to the Personnel Committee regarding performance and incentive awards. At the time of this mailing the Executive Committee is in the process of completing my review. It is anticipated that the Personnel Committee will meet on this as well as the other staff evaluations at their meeting and bring recommendations to the full board - so once review has been completed it will be forwarded the Personnel Committee as well as the full board.
